

INFORMATION GUIDE

FIRST EDITION

Mt. Zion Public
LIBRARY

...it's free!

The Centre provides library facilities and literacy support to the residents of St George's.

Core services include:

- ✔ book lending services for over 1000 children and adults
- ✔ a homework and reference room
- ✔ a motivational reading and writing club.

Our focus is on introducing young people to the world of **stories, knowledge** and **confidence building** through participation, discussion and critical thinking.

In addition, we serve the local business community by providing functional literacy and other basic skills to maximise the employment potential of individuals. This covers arranging specific courses and workshops using outside expertise including:

- ✔ adult literacy courses and teen literacy support
- ✔ employment skills and attitude programs
- ✔ training in library, information & communication sciences.

The Centre is financed by voluntary contributions from organizations, individuals and local businesses. We are a registered charitable organization and donations are tax deductible. We aim to enhance our sustainability by generating income from some of our courses and programs so that the library services remain free to all. We contain our costs by relying on volunteers and a small core staff, for whom working at the Centre has been their first-ever professional job.

Here are some of the things we provide so far

We rent space in the Arnold John Building, upstairs from Digicel, on Melville Street, St George's. This location is easy for young people to drop in after school and is close to central bus services. It also engages members of the public who have never entered a library before because it places book services side-by-side with small enterprises and literacy in a local context.

A community of readers – at a rate of over 100 new members per month since we opened full time in Nov 2014, we now have over 1000 registered borrowers.

Book donation and literacy goodwill growth– we have a fully-stocked children's and general collection, thanks to generous donations from individuals overseas and in Grenada. This inspires more donations and volunteers and now we aim to donate to other libraries around the country.

Warm customer service and safe space - "Your friendly service is what makes me come back." Teens and a variety of members and visitors feel at home and motivated by our Centre - facilitated by our youth librarians, mentoring and developmental opportunities.

We would like to provide:

✔ 'wish-list' books for a **Boys Book Club** and to fulfil readers requests

✔ **job security** for youth librarians and a manager

✔ computer literacy, research and **coding classes**

✔ increased teen, adult and **specialized literacy support**

✔ **public media** and documentation of local literacy experiences

✔ professional consultant and training services in library technology, creative education and employment skills and attitude.

Some of the above will be able to generate some income for our long-term sustainability but your help is needed too.

We need:

❗ **1 desktop** for central library services

❗ **15 laptops** for online adult literacy classes, computer literacy, research training and coding classes

❗ **15 kindles** for book-club discussions (multiple copies of physical books difficult to get)
FUNDS for youth librarian salaries, management and basic running costs - \$6000.00 per month

You can support us by becoming one or more of the following:
