

Our Commitment

SAFE Workplace,

SAFE Operations, SAFE Future

At Carib Brewery Grenada we have been recently impacted by the surge in COVID-19 active cases. In line with our well-established protocols, we have taken decisive steps through immediate and rigorous COVID-19 testing as well as strict quarantine measures to contain the spread of the virus. At this time, we continue to provide full support for all affected employees and their families.

We have and always will place the health, safety, and security of people first. Our approach is grounded in our company's core values, which drive us to be employee-centred and to offer the best and safest customer service.

We are continuously monitoring the evolving situation and adapting our efforts and responses. All COVID-19 Health and Safety Protocols remain in full effect to ensure the protection of our employees' health and well-being.

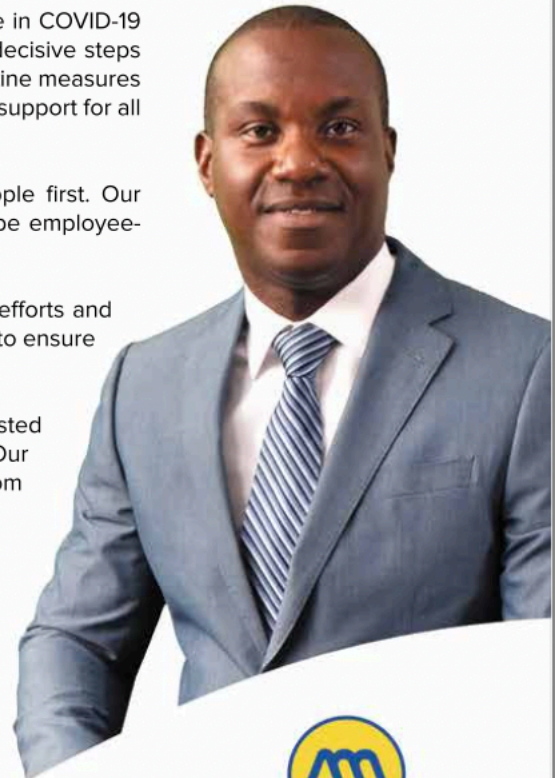

Our production and distribution facilities continue to operate with adjusted 'ways of work' to include additional cleaning and sanitization routines. Our protocols ensure that products are handled hygienically at every step, from manufacturing facilities to delivery at customer outlets.

We at Carib Brewery Grenada recognise that this challenge will not simply go away. We must all find ways to live with, and eventually overcome this pandemic. We will continue to ensure that we are able to produce your beloved beverages in accordance with the highest safety standards.

Keep Safe,

Ron Antoine
