

# Call for Project Proposals

## Priority Areas

**Social Services/Community Development:** established, sustainable developmental projects; infrastructural and other sustainable programmes to benefit our communities.

**Science and Technology/Energy:** programmes that promote interest in these areas and projects that encourage innovation and sustainability.

**Education:** broad-based developmental programmes to benefit schools, vulnerable groups and the wider population; programmes that contribute to the development of our nation's human resource capital.

**Sport:** infrastructural and/or developmental initiatives of umbrella sporting associations and recognised stakeholders.

**Environment:** projects that serve to develop awareness or preserve land and marine habitats for the benefit of the island's eco-system.

**Arts, Heritage and Culture:** national and parish events; developmental programmes.

We are inviting proposals from established community groups, non-profit and other eligible organisations.

The Grenlec Community Partnership Initiative (GCPI) contributes to national development through partnerships with community and stakeholder development initiatives in Grenada, Carriacou and Petite Martinique.

Since 1994, a broad range of our communities and people have been impacted by programmes valued at over twenty-four million dollars. These initiatives are funded through 5% pre-tax profits.
