Statement Regarding Outstanding Payments to Teachers

ST. GEORGE'S, GRENADA, JUNE 5, 2026: The Ministry of Education acknowledges the concerns raised regarding outstanding salary payments affecting a number of teachers.

The Ministry confirms that it received from the Grenada Union of Teachers a list of 17 teachers who had partial payments between September 2025 and April 2026.

The Ministry advises that all teachers on the list are currently receiving their salaries and that it has been actively working to address these outstanding payments. To date, the majority of the affected cases have been resolved.

The Ministry further confirms that the few remaining matters are actively receiving attention, with additional payments expected to be processed during the upcoming June payroll cycle.

The Ministry takes matters affecting the timely payment of teachers seriously and remains committed to ensuring that all legitimate outstanding matters are resolved as quickly as possible.
